## INTERIORS

---

### The Interior Design & Home Styling services include:

- **1st Meeting:** Brainstorming and space analysis. Let's meet and talk about your project!
- **Contract:** I'll give you a detailed offer of my services and will send you the contract.

Let's start!

- **Personalization:** In order for me to get to know you better, you'll need to fill in a form with questions about your space, the way you live, who's using the space, what are your requirements, etc... You'll also receive a "Style book" and a Color scheme form so I can better understand your taste, style and preferences.
- **Budget creation:** I will help you with your budget, we'll discuss how much you want to invest in your new interior, and what is possible to do with your budget. After that I will send you a detailed furniture and accessories list with the average prices so you can have an exact idea of how we'll use your budget.
- **Space optimization:** I'll define the optimal way to use the space based on your preference.
- **Concept Development & Color scheme creation:** After understanding what are your needs and your wishes for your interior transformation, I'll present to you the concept I've created.
- **Moodboards creation (one moodboard per room):** The moodboard will give you a detailed visual of your new interior . All the different elements are the exact ones you'll find in your new apartment (with a bit of improvisation of course).
- **2nd Meeting:** Presentation of the project to the client and validation (or changes if needed).

## INTERIORS

---

- **Selection of items & shopping:** During all the process, I'll share with you an excel document where you'll be able to follow the process: What has been already ordered, received, from which shop, the prices...
- **Tracking and delivery control:** I will coordinate and track the different deliveries.
- **Set up:** Once I have all the elements, we'll choose a set up date. A room is usually done in 1 or 2 days maximum. For an entire flat, depending on the work, it usually takes between 2 and 3 days

For any further information, or if you'd like an exact quote, contact me!
